

Victor Wang

Senior Software Engineer

@ victorwang0355@hotmail.com

📍 Belgium, Brussels

SUMMARY

As a Senior Software Engineer with a penchant for innovation and technical acumen, I excel in discerning user requirements and crafting software solutions that adeptly address a wide array of needs. My proficiency spans an array of programming languages, and I am committed to staying at the forefront of industry developments.

My versatility in software development is evidenced by my capability to undertake a broad spectrum of projects, ranging from the creation of novel applications to the development of cutting-edge operating systems. I pride myself on being an articulate communicator and an outstanding team player, adept at collaborating with multifaceted teams and individuals to achieve collective goals.

EXPERIENCE

Senior Software Engineer

Symphony Solutions

📅 11/2022 - Present 📍 Belgium, Brussels

- Participated in enhancements and updates for subsystems of end-user applications software running on Internet-based platforms.
- Offered experience with Java, JavaScript, TypeScript, Angular, Docker and GCP.
- Improved internal core library used by web and mobile platforms.
- Implemented CI/CD pipelines using Git, Jenkins, and GitHub Actions to automate software delivery processes

Software Engineer

IT Test

📅 03/2019 - 10/2022 📍 Belgium, Gent

- Launched internal order management system utilizing React.js and Node.js.
- Developed robust, scalable, modular and API-centric infrastructures with GCP, AWS and GitHub Actions.
- Updated old React.js code to modern development standards, improving functionality and performance.
- Worked with project managers, developers, quality assurance and customers to create an employee training mobile application.
- Provided React.js guidance and mentored less-experienced staff members.

Junior Software Engineer

PYCO

📅 08/2016 - 02/2019 📍 Belgium, Brussels

- Developed software components in JavaScript based on functional requirements and specifications.
- Efficiently deployed and integrated software engineered by team and updated integration/deployment scripts to improve continuous integration practices.
- Defined feature sets into well-scoped user stories for individual team members based on MVP requirements.
- Wrote technical documentation to support the maintenance team.

STRENGTHS

Problem Solving

Resolved complex technical issues resulting in a 30% reduction in system downtime.

Collaboration

Facilitated cross-functional teamwork leading to a successful product launch within aggressive timelines.

Adaptability

Quickly adapted to new technologies and increased productivity by 20% through self-guided learning.

SKILLS

JavaScript	TypeScript	Node.js	
React.js	Angular	Java	PHP
Laravel	Material UI	HTML	
CSS	TailwindCss	PostgreSQL	
MongoDB	GCP	Amazon AWS	
CI/CD	Docker	Kubernetes	
Terraform	Testing	Scripting	
Agile Methodology	JIRA	Git	
Github	VS Code	Adobe XD	
Figma			

CERTIFICATION

Node.js Certified Developer

OpenJS Foundation

Cloud Computing with AWS

Obtained a certification in Cloud Computing with AWS from Amazon Web Services Training.

LANGUAGES

English

Proficient

EXPERIENCE

Software Engineer Intern

[Amazon](#)

📅 12/2015 - 07/2016 📍 New York, NY

- Assisted in maintenance of software for advertising platform.
- Documented and tested new web applications in JavaScript.
- Performed competitor research to fuel new feature development.
- Collaborated with members of software development team and personnel in other departments.

EDUCATION

Bachelor of Engineering, Computer Science

[Odisee University College](#)

📅 04/2013 - 12/2015 📍 Belgium, Brussels
